

National Post, July 15, 2006

Israel has shown that the best response to terrorism is direct military action. The spineless rulers of India are the worst enemies of the people; despite massive and continuous terrorist attacks originating from neighboring Pakistan and Bangladesh, political considerations prevent the powerful Indian military from hitting the terrorist infrastructure across the border.

Islamist terror in India will never be controlled unless India adopts the stiff resolve and determination to defend freedom shown by the great state of Israel.
