Re: Send Him Home, Letter, July 16.

It has been documented that under Liberal governments, many suspected Sikh terrorists entered Canada by filing bogus claims of alleged "human rights violations" in India. Despite Indian intelligence warnings, we provided asylum to these dangerous people.

The Canadian government must review all refugee claims from India, with the goal of exposing those who attained citizenship by lying about their background. These people must be stripped of their citizenship and deported back to India.

Ron Banerjee, director, Hindu Conference of Canada, Toronto.
